Assume 1080p Desktop

Bold, smooth
animation

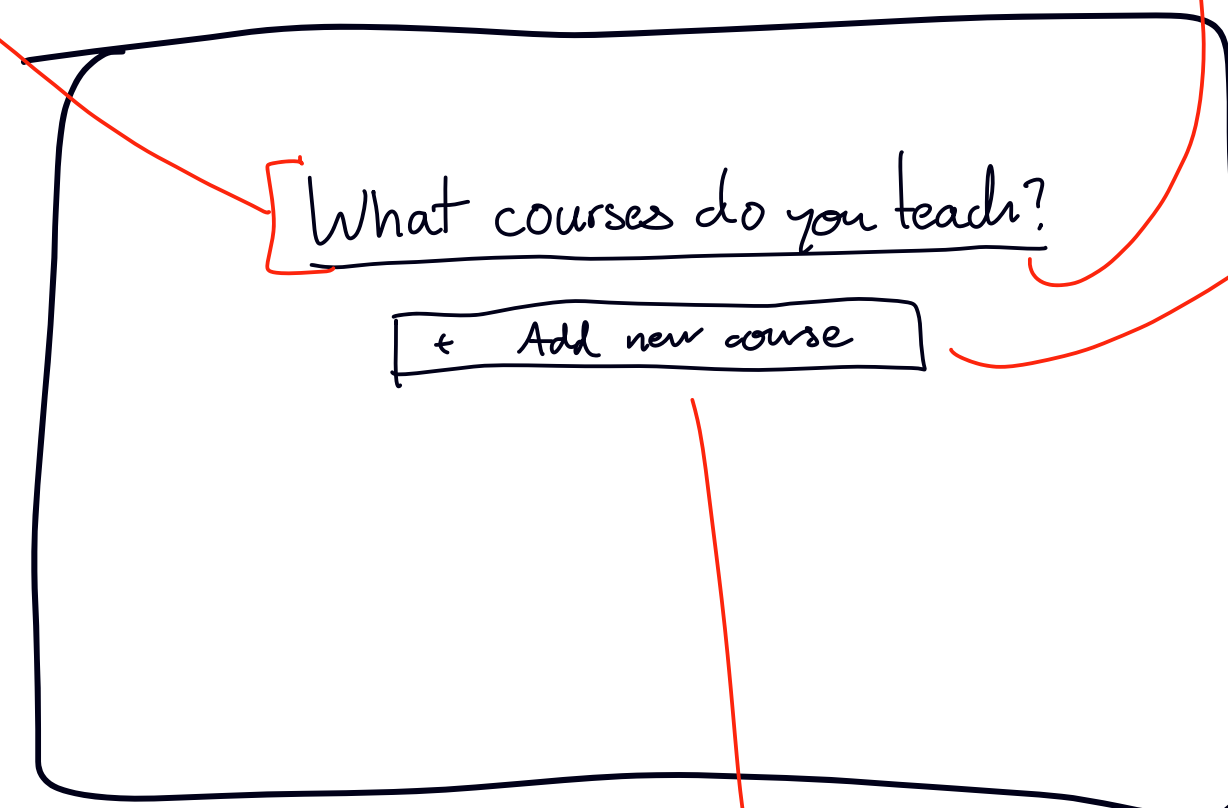

delay

move up & fade out
same time as this text (fade in)

delay

animation move up

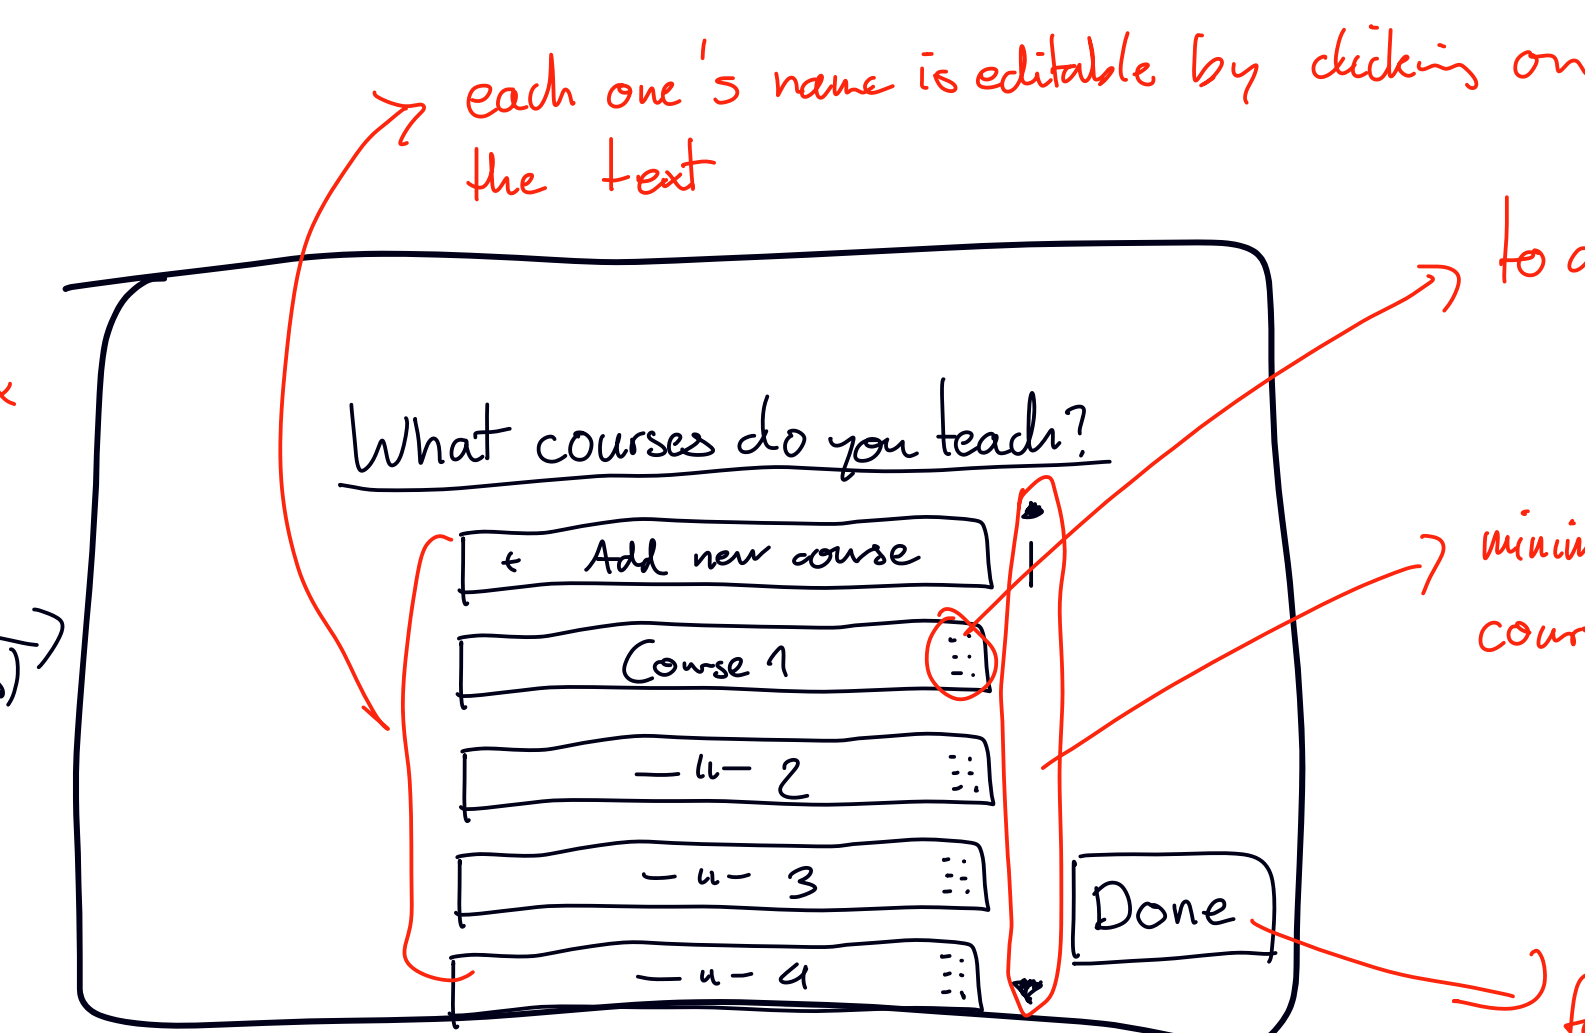

animate scribble line
underlining text
same time as
Course box
appears

(user inputs courses)
fade in &
move up

Entire box is name field
solely for Course title

Example text: HS26 Linear Algebra

Text is middle centered

each one's name is editable by clicking on
the text

to adjust the order (doesn't do anything outside this page)

minimal scroll bar, if
courses go out of screen

fades in after
1 course has been added
(Accent color)

Trigger: Done Button
